

Camilla Moberg
Artist statement:

“In my glass work I aim to achieve a balance between the inherent nature of glass and my own personal preferences. I want to create objects and artworks in which the nature of glass as a material is emphasized in a new and exciting way. The transparency of glass is endlessly fascinating. I’m equally excited when the glass loses its transparency either partly or completely. The colours embodied in glass glow in a spectacular way, and light brings out new dimensions and possibilities.”
